Research Interests

My primary research interests lie in [Reinforcement Learning](#) and [Stochastic Optimal Control](#). Recently, I have started exploring the role of [Game Theory](#) in making multi-agent reinforcement learning algorithms more practical to real-world business applications.

Amongst the application domains, I am interested in [Supply chains](#), [Smart grids](#) and [Robotics](#). On the software engineering side, I built several [Blockchain](#) based solutions for Finance and Auto manufacturing sectors. I am currently building AI based solutions for various use-cases in supply chains. More broadly, I am excited by research at the intersection of computer science, mathematics and software engineering.

Education

Indian Institute of Science

M.Sc(Engg). in Computer Science, Advisor: Prof. Shalabh Bhatnagar

Bangalore, Karnataka

2014 - 2017

- **Thesis:** Stochastic Newton methods with enhanced Hessian estimation

NRI Institute of Technology

B.Tech. in Information Technology, Advisor: Dr. Viswanath Pulabaigari

Guntur, A.P

2008 - 2012

- **Thesis:** An Improvement to k-Nearest Neighbor Classifier

Experience

IBM Research India

Research Engineer position at AI for Supply-chains Group

Bangalore, Karnataka

Jul 2017 - Current

Projects: AI for MEBNs, Blockchain Solutions

- AI based analytics for Sterling Commerce Multi Enterprise Business Networks
- Led the development of IPDC Supply Chain and Dealer Finance Blockchain Platform
- Invoice Reconciliation Using Blockchain for Bajaj Auto Limited first of a kind project

Robert Bosch Center for Cyber Physical Systems

Project Assistant position at Stochastic System Lab under Prof. Shalabh Bhatnagar

Bangalore, Karnataka

Dec 2016 - Jun 2017

Project Title: Distributed Multi-Agent Algorithms for Dynamic Control of Microgrids

- Explored the role of reinforcement learning for the distributed control of microgrids
- I also co-written research proposal along with my project mentor, which is accepted and funded by Department of Science Technology - India
- My research work during this period resulted in two top tier publications.

IBM Research India

Summer Intern position at Mathematical Modeling and Industrial Solutions Group

Bangalore, Karnataka

May - Nov 2016

Project Title: Use-cases on Blockchain

- Built initial version of invoice discounting (supply chain finance) project for Mahindra & Mahindra on hypeledger fabric 0.6.

Patents

- Decentralized Online Multi Agent Visual Question Answering
- System and Method for Factchecking AI models using Blockchain
- Option-based Distributed Reservation System
- Date Quality Control

Awards and Achievements

- | | |
|---|-----------|
| • IBM Research Spotlight Award | 2020 |
| • IBM Research India travel grant award to attend Prof. Yann Lecun talk as part of ACM Annual event in IIT Gandhinagar. | 2020 |
| • IBM Client Value Outstanding Technical Achievement Award | 2019 |
| • IBM Research Accomplishment Award | 2018 |
| • MHRD Scholarship for securing rank among the top 1% in Graduate Aptitude Test in Engineering | 2014–2017 |
| • Secured 2 nd rank during my undergraduate studies in Information Technology Department. | 2008–2012 |

Skills

- **Programming Stack:** Python, Golang, Matlab, C
- **Frameworks:** AngularJS, NodeJS, Dash
- **Databases:** MongoDB, Neo4j
- **Tools:** Git, Bash, L^AT_EX

Teaching

- **Teaching Assistant** at Neuromatch Academy,
July 2020
Computational Neuroscience
- **Teaching Assistant** at Indian Institute of Science,
Fall 2016
Algorithms and Programming

Courses

Selective course work :

- **Artificial Intelligence:** Reinforcement Learning, Machine Learning, Deep Learning
- Computational Methods in Optimization, Design and Analysis of Algorithms, Introduction to Big Data, Game Theory
- **Mathematics:** Stochastic Models and Applications, Linear Algebra and Applications, Real Analysis

Academic Service

Conference Reviewer:

- IEEE International Conference on Data Mining 2020
- American Control Conference 2020
- IEEE International Conference on Data Mining 2019
- ACM International Conference on Information and Knowledge Management 2019
- IEEE Conference on Decision and Control 2017
